Energy trade groups warn new capital rules will boost cost of derivatives, hedging

They worry the most significant new supervisory factor in the proposal affects contracts referencing electricity, oil and natural gas, and fails to reflect the fact variations, such as that oil and natural gas can be stored, or that pricing further out the curve is less volatile. Ball, Chair of the Audit Committee Tracey C. She has extensive experience in business, digital economy, eCommerce, legal and compliance, government relations and public policy, and operational matters.

UT Law CLE Live Conferences

Reid had a 15-year relationship with the Corporation, having advised on corporate governance matters, large capital market transactions, regulatory applications and mergers and acquisitions in both Canada and the United States. Virtual Event AGA's Virtual Financial Forum provides a unique opportunity for energy industry executives, security analysts, portfolio managers, rating agencies and bankers to meet for two days to evaluate the outlook for the energy industry and individual companies.
