## **National Goods and Services Procurement Strategy for Clothing and Textiles (PW)**

It asks how the sustainability impact and also measures towards progress are and should be distributed among them.

### **Textiles and Our Military**

In addition, approved courtesy samples cannot be submitted as a product demonstration model PDM in response to a solicitation.

### **Style that's sustainable: A new fast**

The Introductory Paper on SMEs and RBC is open for consultation and the OECD will receive written comments until 28 February to Resources.

## **Procurement of Clothing and Textiles, 1945**

The Guidance is applicable to all companies — large and small — operating in global garment and footwear supply chains. Access the List of Interested Suppliers for this tender Activity The following statistics are only for the English page and are provided in close to real time. Supply chain transparency might conceivably be a mechanism by which stakeholders can hold companies accountable for sustainability performance and could imply, for example as Egels-Zandén and Hansson show in their article, disclosing the names of first-tier suppliers or more ambitiously disclosing sustainability conditions at the suppliers by publishing factory audit reports.

## **Responsible Supply Chains in the Garment and Footwear Sector**

We outfit every soldier, sailor, airman and Marine around the world, from their first day of service in boot camp, to camouflage uniforms worn on the battlefield and service dress uniforms.

### **Textiles and Our Military**

**Textiles in Europe's circular economy — European Environment Agency**

VM Forms and Links for Contractors Do you have a current contract with Clothing and Textiles and have any ideas on how to reduce the acquisition cost of the contract item without sacrificing function or quality? The attempt to be transparent signals to consumers that the company is responsible and that its products are sustainable. Final chapters discuss advanced tools for assessing productivity in manufacturing, logistics and supply-chain management.
