Smaller predators have fewer requirements and can be equally dangerous; even very small animals can evolve pack tactics to overwhelm larger and stronger creatures. The disadvantage is that if the mothership is destroyed, the invading fleet is up doo-doo-pulsar with no gravity generator.

Space Fighters

A creature that begins its turn within or enters the aura must attempt a DC 23 Will saving throw. I like my picture taken. Source: Alien Archive 2

My Essay Gram

The drive section was retracted for now; in space it would extend from the rear of the interceptor, almost doubling the craft's length, placing the reaction mass nozzle right at the focus point of the reflectors. Including them in this work is a choice which I expect to be somewhat controversial — many would argue that a fleet carrier is a formation, not a vessel — but with respect to those readers who may hold that position, since the Imperial Navy treats fleet carriers as a single vessel for asset accounting and command designation purposes, so in turn shall I. For space fighters to be a viable alternative to big ships, one needs to have enough of them to win against the bigger ships, so the question becomes what that whole swarm of fighters costs compared to the single big ship.

Space Fighters

Such an outcome is unacceptable.

A creature that fails takes 1d6 damage and is confused for 1d3 rounds, and the divination effect immediately ends. Description An apari is a living hive, its gigantic beetle-like carapace animated by generations of tiny insects for whom it serves as both home and queen.

Space Fighters

Description Purportedly born from some ill-informed experiment performed during the Gap, bodysnatcher slimes are parasitic organisms that commandeer hosts to experience life through their senses. Molecular modifications grant it resistance 5 against a single energy type acid, cold, electricity, fire, or sonic. That meant that interceptors, propelled by laser power from their mother-ships, were the weapons of choice for deep space battle.
