Self

From early examples in self-driven legal practice and home-spun advice, the connotations of the word have spread and often apply particularly to education, business, psychology and psychotherapy, commonly distributed through the popular genre of self-help books. Those who help themselves by learning and identifying about health problems can be said to exemplify self-help, while self-help groups can be seen more as peer-to-peer support.

Samuel Beckett as a guru for business executives? However this may be, the central point in the question is this: having admitted their failure to achieve success in accumulating material wealth in a competitive struggle open freely to all, they propose the abolition of free competition. People need haircuts, massage, dentistry, wigs and glasses, sociology and surgery, as well as love and advice.
