Description: Visual sociology and the sociology of religion

Factor analysis determined nine values factors and seven recreational interest factors in the data. In the third model the daily contact of youth with criminal adults and criminal peers results in the erosion of morals and hence in a greater predisposition toward crime. Faith Shaping: Youth and the Experience of Faith.

Dr Elisabeth Arweck

L'accent est mis sur la transversalité des rapports sociaux de sexe et de génération. Faith Maturity Scale and Multidimensional Self Concept Scale pre-tests and post-tests were administered to a convenience sample of youth attending one of five World Changers or World Tour ministry projects during the summer of 1997.

CiteSeerX — 1 Evangelical Protestantism in France:

Lower castes instead can eat chicken, goat and mutton, while pariahs can eat any kind of meat on condition the animal died of old age or disease, because they are impure and must eat contaminated food and remain low in the place assigned to them by the caste system. Types of Religious Systems The evolution of religion cannot be precisely determined owing to the lack of clearly distinguishable stages, but anthropological and historical studies of isolated cultures in various periods of development have suggested a typology but not a chronology.

Description: Toward a comparative

These findings have important implications for those wanting to better understand how religious, familial, and peer influences combine to shape the adolescent's world, which in turn influences young adult religious family values some nine years later.

Religion

Enright, Ching Ru Wu, and Elizabeth A.

Religion and Society

Karl Marx 1818—1883 Karl Marx was one of the founders of sociology.

Description: Visual sociology and the sociology of religion

Therefore, all but one of the research hypotheses were supported. No significant differences existed between the stated values of any of the comparison groups in relation to the expected mean.

Liste Thématique Des Descripteurs

Théorie et méthode dans l'analyse de certains cas de déviance et des problèmes sociaux ex. Driven by both disciplinary and interdisciplinary perspectives, research at the Faculty is rich, innovative and varied, contributing to the depth of understanding and breadth of discussions on a variety of issues nationally and internationally. Secondly, this study has statistically examined the interaction effect of parent's marital status and parent's religious orientation on the adolescent's spiritual well-being.
