1966 Census: Statistical tables (aggregate data)

Continue with the next question. The chapter further discusses the internal political life of Canada.

Census Resources by Year

Since then, the proportion of common-law couples has grown steadily to 16. Aboriginal peoples in Canada in 2006: First Nations, Métis and Inuit, 2006 census Catalogue no. Agriculture: reports for states with statistics.

Census of India: Gender Composition

Note: For more information, see A. Mark as many circles as applicable. This decrease was mostly a result of the growth of common-law couples.

UNSD — Demographic and Social Statistics

I conclude the chapter with discussions of two key areas of age and sex structure, namely, the sex ratio at birth SRB and population aging.

Census of India: Gender Composition

If you are answering on behalf of other people, please consult each person. Surnames are not in alphabetical order in the tables, but an index is provided for each volume.

2016 Census of Population questions, long form (National Household Survey)

The early 1960s was near the end of the baby-boom period 1946 to 1965, when many people married at a fairly young age and had relatively large families. In addition to conducting a Census every five years, there are about 350 active surveys on virtually all aspects of Canadian life.

Indigenous Families and Households in Canada: A Tale of Statistical Disadvantage.

UNSD — Demographic and Social Statistics

Progress of population from 1790 to 1850 - VI. Sources: Statistics Canada, censuses of population, 1911, 1921, 1931, 1941, 1951 and 1961. .
