Which German language course

These contain the sounds section , lessons, spoken exercises and lots of supplementary material. They work by teaching you the language via audio and books but keep the learning process interesting. Time tested - Linguaphone has been producing language instruction material since the early 20th century.

Learn German language course

Share this page: Author: David Paul Wagner.

Linguaphone (Linguaphone Institute)

Imitating the voices of the native speakers on the course will help you get used to the intonation and accent.

Learn German language course

The vocab list for each lesson, the lesson dialogue and the followed by the explanatory notes like the courses do it. Click the language you would like to learn and chose the right course for you.

Learn German language course

Today the audio is recorded onto CD's or mp3. This German language course is a real alternative to taking classes and will provide you with a permanent lifelong reference for revision and referral.
