## Chapter 14

Digital competence is one of three cross-curricular responsibilities, alongside literacy and numeracy. The Communications module G20001 is a required component of FETAC accredited courses and support for its delivery is very good. It should contribute to developing a holistic picture of the learner — their strengths, the ways in which they learn, and their areas for development — in order to inform next steps in learning and teaching.

### How to Write a Self

For the next review period, I would love to work more closely with our Communications team to better understand their relationship with our department. I tried to learn as much as I could from those who have been here longer, and I checked in regularly with my team members and those under my supervision to ask for their feedback. When developing these processes, consideration should be given to using a wide variety of different communication means, e.

### Digital Competence Framework and Learning in Digital Wales

Area 2: Follow-up actions planned or undertaken since the completion of the inspection activity to implement the findings and recommendations of the inspection The Inspection, in March 06, took place prior to the opening of the new college campus. Active engagement between the learner and practitioner on a regular basis is at the heart of supporting learner progression. Instead, use these tips and templates to write a self-evaluation that highlights your skills and improvement.

### Vocational education task

Evidence of cross curricular learning 8.

### How to Write a Self

Where learners are non-English speaking, the Institute works to ensure that no learner is disadvantaged in assessments because of a specific difficulty with written English.
