Vincent gave it to his landlord before his death, along with his painting of the town hall in Auvers. Gauguin quickly fled Arles, and the two men never saw each other again. From 1886 to 1888, Van Gogh became acutely interested in Japanese prints and began to avidly study and collect them, even curating an exhibition of them at a Parisian restaurant.

Vincent van Gogh : the final years

In his lifetime, Van Gogh created 900 paintings and made 1,100 drawings and sketches, but only sold one painting during his career. The move to Provence began as a plan for a new artist's community in Arles as alternative to Paris and came at a critical point in each of the artists' careers.

Vincent van Gogh : the final years

His doctor diagnosed a combination of epilepsy and mental illness. Gachet was a doctor in the town of Auvers-sur-Oise, and was treating Vincent van Gogh during his last weeks of life. Despite enormous productivity, Van Gogh suffered from various bouts of mental instability, likely including epilepsy, psychotic episodes, delusions, and bipolar disorder.

Researchers Find Clues to Vincent van Gogh's Final Days in His Last Painting

Late Years and Death The majority of Van Gogh's best-known works were produced during the final two years of his life. There he discovered the art of Baroque painter , whose swirling forms and loose brushwork had a clear impact on the young artist's style.
