### Experts Solve 1000

The modern reproduction shown to the left is a bit more narrow than the more typical width or the replica loom shown to the right.

### A BRIEF HISTORY OF DYESTUFFS & DYEING

Egill received one as a gift from his friend Arinbjörn Egils saga, ch. Homespun cloaks had a shaggy exterior, like sheepskin.

### Ancient Pigments

It is possible that some trousers were held up with a simple drawstring in the waist band, as seen in the reproduction trousers shown to the left.

### Authentic leather dyeing

If there was a chinstrap and the hat was pulled forward, the penalty was lesser outlawry banishment. Grierson, 6 In the Mediterranean before the advent of Christianity, a whole dyeing industry arose around Tyrian purple. Blue - Whoever wishes to make a fast blue, take ground lapis lazuli pigment in lime water and boil it with gum arabic and with alum and dye therewith.
