A strong financial sector for a stronger India

The basic idea is that there is a fixed cost to learning about a company, and also an ongoing cost to being active in the market and remaining up-to-date, which may discourage individuals from holding sufficient shares for adequate diversification. I know that all of you are aware that India has been among the fastest growing economies in the world in recent years. We recognize important reforms already.

Financial Intermediation, Markets, and Alternative Financial Sectors

We argue that while traditional financing channels, including financial markets and banks, provide significant sources of funds for firms in developed countries, alternative financing channels provide an equally important source of funds in both developed and developing countries. This view—the financial services view—emphasizes the quality of the services produced by the financial system.
