

Biogeochemistry of subalpine ecosystem - the Loch Vale Watershed

Springer-Verlag - Loch Vale Research

Description: -

-

Loch Vale Watershed (Colo.)

Biogeochemistry -- Colorado -- Loch Vale Watershed

Mountain ecology -- Colorado -- Loch Vale

WatershedBiogeochemistry of subalpine ecosystem - the Loch Vale Watershed

-

v. 90

Ecological studies ;Biogeochemistry of subalpine ecosystem - the Loch Vale Watershed

Notes: Includes bibliographical references and index.

This edition was published in 1992

Filesize: 48.810 MB

Biogeochemistry of a Subalpine Ecosystem by Jill Baron, M.A. Arthur

Cumulative effects of nutrients and pH on the plankton of two mountain lakes. The major sources of precipitation at locations west of the mountain crest are synoptic-scale frontal disturbances bearing Pacific moisture. Water Resources Research 36: 37-47.

Sources of dissolved and particulate organic material in Loch Vale Watershed, Rocky Mountain National Park, Colorado, USA

The water content of lake sediments and its relationship to other physical parameters: an alpine case study.

Loch Vale Publications

Biogeochemistry of a Subalpine Ecosystem.

Loch Vale Publications

Spatial patterns of simulated transpiration response to climate variability in a snow-dominated mountain ecosystem.

Loch Vale Publications

Thesis, Department of Atmospheric Science, Colorado State University, Fort Collins, CO, 37 pp.

Loch Vale Research

Proceedings: High-Altitude Revegetation Workshop No. The interactive effects of excess reactive nitrogen and climate change on aquatic ecosystems and water resources of the United States. Mechanisms for chemostatic behavior in catchments: Implications for CO₂ consumption by mineral weathering.

ne-x.uni.rf.gd: Biogeochemistry of a Subalpine Ecosystem: Loch Vale Watershed (Ecological Studies, 90) (9781461276708): Baron, Jill, Arthur, M.A., Dennings, A.S., Harris, M.A., Mast, M.A., McKnight, D.M., McLaughlin, P., Rosenlund, B.D., Spaulding, S.A., Walthall, P.M.: Books

Symposium Proceedings: Managing Water Resources During Global Change. Thesis, Graduate Degree Program in Ecology, Colorado State University. Chemical Quality of Water and the Hydrologic Cycle.

Biogeochemistry of a Subalpine Ecosystem by Jill Baron, M.A. Arthur

Transition of dominant peak flow source from snowmelt to rainfall along the Colorado Front Range: Historical patterns, trends, and lessons from the 2013 Colorado Front Range floods.
