**Physical Chemistry from Ostwald to Pauling: Servos, John W.: 9780691026145: ne-x.uni.rf.gd: Books**

Book Description: John Servos explains the emergence of physical chemistry in America by presenting a series of lively portraits of such pivotal figures as Wilhelm Ostwald, A. Lewis, and Linus Pauling, and of key institutions, including MIT, the University of California at Berkeley, and Caltech.

## Physical Chemistry from Ostwald to Pauling

By exploring the relationship of the discipline to industry and to other sciences, and by tracing the research of its leading American practitioners, Servos shows how physical chemistry was eclipsed by its own offspringspecialties like quantum chemistry.

**Physical Chemistry from Ostwald to Pauling: The Making of a Science in America by John W. Servos**

The Making of a Science in America. He could not solve a crystal structure or a wave equation.

**Physical Chemistry from Ostwald to Pauling: The Making of a Science in America by John W. Servos**

The names of its progenitors were familiar to everyone who was scientifically literate; studies of aqueous solutions and of chemical thermodynamics had transformed scientific knowledge of chemical affinity. I cannot recall any other recent book in this field that has managed to combine such high standards of verbal clarity, smoothness of narrative, and sheer elegance, with intellectual rigor and extensive archival research.
