Lü Tung

Missing here is any extended confrontation with the problem of central institutions , or with central politics as other than chiefly a personal and individual moral problem. His more recent books are *The Trouble with Confucianism* and *Learning for One's Self*.

But so long as strategy remains the model of political activity, its contingencies are not really informed by a consciousness of historical time. Chicago: University of Chicago Press, 1953. *Local Merchants and the Chinese Bureaucracy 1750-1950*.

Kevin Sharpe and Steven Zwicker Berkeley: University of California Press, 1987. First, we must grant, is its seeming unoriginality. What was suitable for one age might not fit the next, and no period was privileged.

A Chinese Biographical Dictionary

It is plausible to read this to mean that Lü did not assume that such men would be members of the compact, or at least that they would be much present at its gatherings. It is tempting, for example, to speculate that Chia Ssu-tao's policy of land expropriation between 1263 and 1275, which even if geographically limited represented a drastic, desperate attempt at central-government intrusion, was doomed from the start not only by politico-economic realities but also by its failure, even in the face of external menace, to muster arguments persuasive enough or force powerful enough to reverse the prevailing social decision and so overcome the resistance of local elites and bureaucrats not only in the affected regions but throughout the country and the bureaucracy. Cambridge: Cambridge University Press, 1974.

We owe thanks also to Frederic Wakeman, Jr. In his specific discussions of institutions he appears always as a decentralizer.
