Geneva: World Health Organization, 2003. Since 2002, the WBG has also worked closely with the GPE. For various reasons, not all young people within this age group are able to live in a stable and secure family environment and we would have concerns about the poverty implications if they were unable to enter formal employment until the age of eighteen.

### Effect of Community Participation on Sustainability of Community Based Devt. Projects in Kenya

The enormous benefits of physical exercise have been recognised but they need to be more widely experienced. The NCTC in conjunction with a number of disability federations has developed a disability awareness module.

### TSN Annual Report

There is a need to develop coordinated approaches for communities and, in particular, families experiencing difficulty.

### Promoting the Participation of People with Disabilities in Physical Activity and Sport in Ireland

Jones J, Nix NA, Snyder EH.
