Herb Garden Ideas: A Guide for Growing Herbs

This helps to mimic outdoor weather conditions and strengthens the plant and keeps it growing thicker. If you are crafty you can even create some for yourself.

Grow Sage in Your Herb Garden to Symbolize Success

This recipe can vary depending on which herb or plant is being grown but the same ingredients are needed to produce the result. Growing herbs in beds near the house or next to other buildings or walls provides a warm, sheltering microclimate and increases a gardener's chances of success with tender perennials like rosemary, which is hardy only to Zone 8.

The 5 Best Indoor Herb Garden Kits

Since you're growing your herb indoors you can probably get away with watering it every 2-3 days. Typically a transplant is an easiest and quickest method to reap the rewards of fresh herbs. If you are unsure about the amount of sunlight being provided naturally for your plants, you can measure it with a sun meter.

Preparing for the Winter Herb Garden

Most herbs will require good drainage and nutrient-rich soil for optimum growth. My favorite way to do this is to learn which plant family each herb plant belongs to.
