The first ECAR race was at Summit Point Motorsports Park in West Virginia on 07 Jul 1985. As initially designed, the formula

Filesize: 57.63 MB

specified a maximum of five gears, minimum weight of 968 lbs and maximum fuel capacity of 15 gallons. As a result of its similarity to and in terms of chassis regulations, Formula Atlantic typically used chassis closely related to these cars — with performance somewhere in between the two — so most of the manufacturers were familiar from those classes, particularly the likes of , , early on, with and then later.
