A New Genus of Lungfish from the Givetian (Middle Devonian) of Central Australia

However, the number of tooth rows and cusps in each row can increase during growth, as documented in *Eothenodus*. Ashmore-Cartier prospectivity package : an analysis of the petroleum prospectivity of vacant areas overlying the Ashmore Platform, Vulcan Sub-basin, Jabiru Terrace and northern Browse Basin Research Cruise Proposal : BMR Cruise 106 : Seabed Morphology and Offshore Resources Around Christmas Island, Indian Ocean : Project 121.

Data

If two or more references have the same first author and date, then use a and b in italic etc. The two Early Pleistocene *Crocidura* species can be distinguished morphologically mainly by the characteristics of the coronoid process. These shrews were clearly distinguishable from the contemporary *C.*

Establishing a neotype for *Crocidura obtusa* Kretzoi, 1938 (Mammalia, Soricidae): an emended description of this Pleistocene white

Premaxilla: 0 present; 1 absent. Beckmann for their help in the search for comparison material. Requests to study specimens should be made in writing by letter or e-mail and addressed to the appropriate curator.

Article Search Results

Each composite figure should have an introductory sentence preceding description of its parts. We are grateful to Dr Lorna Steel and Dr Jerry Hooker of the Natural History Museum, London; and Dr David Martill of the University of Portsmouth for providing updates. Postparietals meet in midline: 0 yes; 1 no, separated by B bone.

By Type

Oxford Scholarly Authorities on International Law contains full-text online editions of market-leading reference works and treatises published by

Oxford University Press. Scale morphology: 0 rhomboid, cosmine-covered; 1 semirounded, cosmine covered; 2 rounded, no cosmine. Gratkorn specimens of the latter species are in metric and morphologic accordance e.
