Candidate Handbook For more information please view the. ESME Courses in Medical Education The AMEE Essential Skills in Medical Education Face-to-Face and Online Courses are designed for practising teachers in medicine and the healthcare professions, both basic scientists and clinicians.

An International Association For Medical Education

The University aims at the comprehensive development of every student; therefore, it encourages students to take part in various cultural, social, and sports activities.

IARC

For the practical training of students, the University has nine state-of-the-art affiliated hospitals and two well-furnished polyclinics. At Perm State Medical University, students are enabled to make the best of education as well as life. These results suggest the need for strict postoperative monitoring in smokers due to the increased risk of experiencing adverse events and underline the need for intensive smoking cessation interventions in the preoperative setting.
