### Teaching Music

Ukulele, acoustic guitar, piano, claps, and tambourine deliver the perfect melody, while sweet girl singing creates a cheerful vibe. Background for this page and several others in this web site provided by Gotomy. The Composer in the Classroom.

### Teaching Music

Perfect for comedy, kids show, family videos, music for education videos, as music for advertising, cook show, and documentary.

### What is music education and who is it for?

One experiment involved memorizing a word list with background music; participants recalled the words 48 hours later. Music is seen as separate from, and more fundamental than, notation. This track is ideal as background music for a webinar, online training, product presentation, infographic, promotion, commercials, slideshows, marketing, commercial projects, and more.

### Music education

This track will raise your projects to a new level. We learn music for the experiences, skills and knowledge that musical learning itself brings. And like the licensing issue, this could be a long, tedious, and complicated job to do.
