Greater Green River Basin

For mountaineers, throughout the range there are glaciers, snowfields, and couloirs offering fantastic snow climbs and requiring the use of axes and crampons.

Wind River Range : Climbing, Hiking & Mountaineering : SummitPost

Though not sandbags these exist too, of course , they are committing.

Wind River Range : Climbing, Hiking & Mountaineering : SummitPost

In northwestern Wyoming comprises lower shale division, Death Canyon member new , and upper shale division.

Wyoming Geography: Wyoming Regions and Landforms

. Two-day approaches are common to all the alpine, ice, rock and scrambling routes.

Greater Green River Basin

Be sure to fill your gas tank before you head out from Pinedale and always have a spare tire along. On the south side of the Washakie Range in northwestern part of the Wind River basin, Fremont Co, WY, where the Death Canyon Limestone Member is recognized, the Gros Ventre can be separated into the Wolsey Shale Member at the base, the Death Canyon in the middle, and the Park Shale Member at the top. The Winds are a range with a massive amount of water in the form of thousands of lakes, pools, meadows, marshes and waterfalls.
