However, even with this collectivism, social inequality persisted within the banya where nudity was not only separated by gender, but also by class: the smaller and more intimate the space, the higher the class of its users. Jazz flourished with the sanction of Soviet authorities and evolved into one of the most popular musical forms. He and many other Russian artists also suffered repression in the period 1946—53, during which Soviet authorities attempted to exert greater control over art.
