Dental Lab Technician Career Guide

Dental technicians manufacture dental prosthetics including bridges, crowns and dentures according to specifications dentists send to them. This program is delivered as both an apprenticeship program and a non-apprenticeship program.

Training and Education

Dental Lab Tech Education Although each program has unique entry requirements, a high school diploma or GED is a standard prerequisite for applying to an accredited dental lab technology program.

Maxillofacial Prosthetic Technician Training Program

Your VET Student Loan becomes part of your VETSL debt. Learn how to build dentures for different shaped mouths and medical conditions.

Certified Dental Technicians (CDTs)

An important part of the role is to check on the patient's general dental welfare. You will also learn about the role social and economic pressures have on the delivery of dental care.
