Universal Health Coverage: How Rwanda is moving forward with healthcare for all

For members of the Nipissing University community that may have university related questions, please contact. For people of modest financial means, this will necessitate building relationships with local social service agencies.

Frequently Asked Questions from the

NU Community About Coronavirus

A person viewing it online may make one printout of the material and may use that printout only for his or her personal, non-commercial reference.

Moving Forward With Important Initiatives

In April 2018, New Brunswick released a person-centered and integrated services framework for palliative care.

North East Local Health Integration Network (LHIN)

Health workers involved in facilitating hospital delivery in Janani Suraksha Yojana JSY is another example of performance based financial incentive practice.

Moving Toward a National Policy on Palliative and End of Life Care

It is also agreed that palliative care begins at the time of diagnosis of an incurable disease. On a more personal level, health care providers, either specialist or non-specialist, provide a variety of treatments and pain and symptom management; while counsellors, volunteers and community members provide respite care, spiritual, grief and bereavement supports, among many others.
