Regional Material Flow Accounting and Environmental Pressures: The Spanish Case

We also estimated an OLS model for food consumption diversity. Absolute, per capita and per surface area values and biomass share.

Rural and urban areas: comparing lives using rural/urban classifications

They should also be sensitive to city concerns about creating dependencies on private sector providers.

Frontiers

The command system lacked the flexibility to ensure the widespread implementation of technological change that would contribute to essential productivity growth. Then we calculated the average rates of change of the two groups. A critique of the evidence.

Frontiers

Layoffs were common, and as much as thirty percent of the urban work force was out of work for some period of the year.

Regional Material Flow Accounting and Environmental Pressures: The Spanish Case

See the Federal Travel Regulation 301-11. Import-substitution industrialization policies, while they were not popularly labeled as such at the time, had transformed the economic structure of Latin America.

Urban Poverty and Geographically Concentrated Low
