COVID

The relationship of age and sex with each mental disorder was examined. On 7 May 2020, the director-general of public health Yolanda Fuentes resigned, apparently in protest at the regional government's decision to request a loosening of the lockdown restrictions. He was immediately disauthorized by.

COVID

The aim of this study is to assess the intake of these foods by children, their relative contribution to overall macronutrient intake and their effects on health.

Prevalence of Mental Disorders in the Elderly in the Community of Madrid: Results of the Mentdis_ICF65+ Study

Results show higher prevalence rates than previous studies reported.

Prevalence of Mental Disorders in the Elderly in the Community of Madrid: Results of the Mentdis_ICF65+ Study

Conclusions: Children from the Autonomous Community of Madrid, Spain consume excessive sweets, which could be responsible for a higher prevalence of diseases related to this intake, such as caries, obesity and obesity-related associate diseases. Background: In our society advertising campaigns promote consumption of superfluous foods, such as sweets and snacks, displacing the intake of other basic nutrients. Andreas S, Schulz H, Volkert J, Dehoust M, Sehner S, Suling A, Ausin B, Canuto A, Crawford M, Da Ronch C, Grassi L, HersHKovitz Y, Muñoz M, Quirk A, Rotenstein O, Santos-Olmo AB, Shalev A, Strehle J, Weber K, Wegscheider K, Wittchen HU, Härter M.

COVID

Burgueño had previously served as Director-General for Hospitals under , and , and had left office after Justice blocked the latter's attempt to further privatize the health system.
