By 1980, investment in the water sector was just one-third of what it had been in 1970. The city of Chattanooga, TN found this out the hard way as well.

Water Privatization and Regulation in England and Wales

When water services move from the public to the private sector, then the control gets transferred to a corporation.

Water access transformations: Metrics, infrastructure, and inequities

There can be a reluctance to remove workers because of the negative publicity that would occur from those circumstances. A private company contracted to test the supply knew that it was contaminated, but it was not required to alert the government because of the regulations that encouraged privatization at the time.
