12.2 The Perception and Experience of Aging

To test whether older adults were indeed more likely to endorse and internalize cultural values than did younger adults, examined personal and cultural values among younger and older Chinese adults. There, she studied the coping strategies of cancer patients.

Adult Development and Aging Textbooks

This model may be applied to both the developed and the developing world, and it suggests that as people age they will be abandoned and lose much of their familial support since they become a nonproductive economic burden. In particular, I argue that a individuals make sense of life i. Coverage includes a broad range of articles exploring global aging, from such perspectives as history, anthropology, sociology, political science, psychology, population studies, and health.

Aging in Cross Cultural Perspective

Because so many people died and food was so scarce, the elderly were considered a burden and held in disrespect. Individual differences in interdependence also moderated the age-related positivity effect in attention among younger, middle-aged, and older Chinese.

Theoretical Perspectives on Aging

The Handbook of Aging and Cognition 3rd ed.

Handbook of the Psychology of Aging

Attitudes on the Extension of Longevity: Motivational Mindsets The available theoretical considerations and empirical findings on desired longevity point to a considerable heterogeneity and breadth of diverse research venues that are not yet well connected with each other.

Center on Aging and the Life Course

In hard economic times, there is great concern about the huge costs of Social Security and Medicare. We noted how a socially entrenched patriarchal structure normalizes social control. Moreover, not everyone finds fulfillment in the presence of others or participation in activities.

Aging in Culture

They are thus less likely to show preferential processing of positive stimuli over negative stimuli with age. The course traces the evolving conceptualizations of aging, old age and life course and their role in understanding the processes, outcomes and representations of aging.

Theoretical Perspectives on Aging

In contrast, the group that wished for shorter lives than expected was predominantly female. Handbook of cognitive aging: Interdisciplinary perspectives.
