Micro-buses are licensed by each as taxicabs, and are generally operated privately by their drivers. These are typically smaller than buses and usually take on a fixed or semi-fixed route without timetables, but instead departing when all seats are filled. Although most of the older history in Kenya is not written, many of the people born in the 1940s and 50s vividly tell the story of how they used to pay thirty cents to any destination when the share taxis were introduced.

The shuttle will typically connect one airport with several large hotels, or addresses in a specified area of the city. While saying not to use any form of public transport in , the advises against tap tap travel especially. During peak hours they will take a full cab load of passengers to a more or less common destination.

Share taxi

As of 2020 in , Rwanda, syndicates include RFTC, Kigali Bus Services and Royal express, all of these operating in Kigali but each province has got a couple of companies operating there as well. Older jeeps have the entrance on the back, and there is space for two people beside the driver or more if they are small while the modern jeeps have to doors on the right side of the vehicle.

It means he is not interested in sharing the taxi and is consequently willing to pay more for the privilege. Post 1987, the industry was rapidly deregulated, leading to an influx of new minibus taxi operators, keen to make money off the high demand for this service. Minibuses are often used in lieu of vans.
