Photography in Vietnam from the End of the Nineteenth Century to the Start of the Twentieth, by Nguyễn Đức Hiệp

Niépce's associate went on to develop the process, the first publicly announced and commercially viable photographic process.

history of photography

The canvas is then removed and deposited in a dark place. Ammonia was added just before use to make the formula. After experiments with threads that had created lines on the bottled substance after he placed it in direct sunlight for a while, he applied of words to the bottle.

19th

Several images from his studio are some of the earliest taken in Saigon, before those of Gsell. Brown, author of Civil War Monuments and the Militarization of America.
