## Drought Tolerant Grass Varieties

In the summer it will be dormant, so you won't have to water it much anyway.

## Ornamental Grass List

All fresh seedbeds and sod will need to be watered frequently to get the roots to take quickly. As its name implies, it originates from Northern Africa and the Middle East, but made its way to the Americas and quickly invaded many native regions of California.

## Native Grasses of the Pacific Coast and Northwest

Some of the ornamental grasses are very fertile and can cause problems in the landscape and in the wild if they escape. Blooms in April to July, but sometimes as late as October. The savannas experiences a surge of new life at this time.

## California Native Grasslands Association

This often means that cool season grass is more likely to thrive in Southern California. After all, you need a grass variety that can survive on very little water and in extreme heat during summer months. Flowers in spring with feathery blooms that turn a straw color later in the season.

## 3 Best Grass Types for Lawns in San Diego, CA

Best California Varieties For California, Nevada, and Arizona residents, picking the right kind of grass can be a real challenge. A loose mound that grows 2 to 3 feet 60-90 cm tall.

## Native Grasses of the Pacific Coast and Northwest

While some species are native to California and may not be invasive, there is at least one species considered non-native and quite invasive.
