Why Russia Wants Crimea

Location within Russia The submarine Incident off Kola Peninsula was a collision between the and the nuclear some 150 km 90 mi north of the Russian naval base of , on 20 March 1993. With precision targeting, a hit could be designed to cause the building to collapse in on itself with virtually no radiation release. Prior to that, the administrative duties were performed by the tax collectors from Kandalaksha.

North Korea Crisis

North Korea produces both and , with one U. The Sami people were subject to forced , including forced relocation to and other centralized settlements, and overall the peninsula was heavily industrialized and militarized, largely due to its strategic position and the discovery of the vast deposits in the 1920s.

Satellite images reveal Russian navy's massive rearmament on Kola Peninsula

People's grassroots campaigns and international solidarity to oppose war is the most secure way of making peace in northeast Asia.

US Navy announces nuclear submarine passed through Strait of Hormuz amid tensions with Iran

Called the Agreed Framework, it was designed to put the brakes on , and it promised to put an end to years of increasing nuclear tension, including a near war, to a halt.
