This book does a great job of describing how the needs of a small group of upper-class Boston merchants impelled them in the early 19th century to abandon a style of life based primarily on trans-Atlantic trade, and to create an innovative game-changing economy based on textile manufacture, insurance, and banking. No special breeding, status, or even valor was required.

Although they used modern methods when it suited their interest, they were most concerned with protecting the positions they had already won at the top of a traditional social order. Their most notable achievement was the development of the Waltham-Lowell system in the textile industry, but they were also active in transportation, banking, and insurance, and at the same time played a major role in philanthropy and politics.

Thus, for all the innovations they sponsored, their commitment to change remained both partial and highly selective. The Boston merchants

responded to criticisms of their privilege by deliberately shunning conspicuous display. Thus, for all the innovations they sponsored, their commitment to change remained both partial and highly selective.
