### Journey into Darkness by John E. Douglas, Mark Olshaker

One chapter is a criminal profile over the murderer of Nicole Brown and Ron Goldman which I found to be endlessly fascinating. From seemingly ordinary men who suddenly kill their families or go on a rampage in the workplace to dedicated murderers who embark on the kind of spree that resulted in the death of fashion designer Gianni Versace, John Douglas helps us understand what causes violent sociopathic behavior. The profile was dead on the money.

The book also interweaves , with whom Kane had been in late 2004 and early 2005, into Kane's past. They have wondered what caused his pain and suffering.

### Journey into Darkness: An Unauthorized History of Kane

Additionally, the author's argument against the futile attempts of rehabilitation in certain cases, and his arguments for capital punishment are hard - if not impossible - for a reasonable person to disagree with. Ed is gonna come back to this floor in a little while, so try to make the corner rooms your little safe haven by assassinating all the monsters so you can save.

### Journey Into Darkness: The Unauthorized History of Kane by Michael Chiappetta

Use the shotgun only on Horrors and Dark Guardians, saving the handgun for Trappers and the kukri or torch for zombies. One figure shown briefly in the videos even looks like Leonov, which at least attests to an attention to detail. Seeing the way they tied everything together and following along was amusing.

Simply impossible to put down. Instead of basking in the glow of the spotlight, Kane has shunned attention. The suffering and pain as immense as it can be, because of people like John Douglas there is hope.

John Douglas may or may not be a great profiler, he certainly seems to think he is and doesn't mind telling the reader so ad nauseum. Even those who are not fans of pro wrestling, upon which Kane's story is based, could really enjoy it. It also does not explain where The Undertaker gained his powers either.

**Listen to Journey into Darkness Audiobook by John Douglas, Mark Olshaker, and Danny Campbell**

I bet all of you who applied for an archaeology degree never expected to find the major this exciting did ya? The panning shot showing what appears to be a vast alien city on the lunar surface is actually a digital composite created from an Apollo 17 moon photo combined with a painting of alien landscape by artist Bruce Pennington. This does more or less confirm comments and assertions by the Undertaker that he had set the fire, but his reasons for doing it were entirely skewed, apparently for the purpose of causing emotional harm to Kane himself later on in WWE storylines, but this little tidbit does dispel some theories that had somehow brainwashed The Undertaker into saying that he had set the fire. Two shots should do the trick.
