Cyanotype printing with Dr Mike Ware

Once a piece has been exposed to the sun, the artist loses control over the outcome, and can only rely on Nature for the outcome.

Chrysotype: Photography in nanoparticle gold

The image is partially formed during the exposure. An albumen print with alkaline gold toning The new photographic technology of stereographs and cartes de visite increased the demand for albumen paper.

Cyanotype

It also incorporates accounts of some contemporary scholarship on the medium as art, and discusses a number of issues about the practice that are currently being raised with increasing frequency in those alternative process online forums where it receives interest. Image formation: 1 Place the dried paper in contact with the negative sensitized surface to emulsion in a contact printing frame. New York: Metropolitan Museum of Art.
