Community Eye Health Research: Journal Article Database

To add to the series of misunderstandings, Ixia retusa Salisb. CREMER, K Willow management for Australian rivers Natural Resource Management Special Issue. The inequitable distribution of land and colonial legacy of dual or pluralistic systems of tenure are found to be at the root of many agrarian and environmental problems.

The effects of land tenure change on sustainability: human security and environmental change in southern African savannas

Community ophthalmology requires a comprehensive approach for primary, secondary and tertiary prevention of all eye diseases like vitamin A deficiency, trachoma, measles, diabetic retinopathy, refractive errors, etc. High threat to the riparian vegetation in water catchments of the DAC. Levin, Encyclopedia of Biodiversity Volume 2 : Academic Press, San Diego.

Community Eye Health Research: Journal Article Database

The walls of the slender, lower part of the tube always tightly clasp the style and the tube contains no nectar.

Community Eye Health Research: Journal Article Database

Using a human security perspective, we investigate how the history of land tenure changes has driven sustainability in southern African savannas.
