## Tuberculosis: Current Status, Diagnosis, Treatment and Development of Novel Vaccines

Working Group on New TB Drugs. Within 48 to 72 hours, a health care professional will check your arm for swelling at the injection site. Further, in-silico models were developed for finding new drug targets and designing drugs against Mycobacterium tuberculosis Mtb.

## Tuberculosis: Current Treatments and Investigational Therapies

Diagnosis can be made within 2 hours and the test is now recommended by WHO as the initial diagnostic test in all persons with signs and symptoms of TB. The bacteria are in droplets of secretions that come out of your mouth or nose when you cough or sneeze. Active TB infections are treated with multidrug cocktails.

## Drug

The size of the bump determines whether the test results are significant. NIAID also supports research to map the diversity of genetic drug resistant Mtb and assess what factors influence the occurrence, distribution, and transmission of drug-sensitive and drug-resistant strains of Mtb.

## Current recommended management of tuberculosis

These resistant strains can take up to 24 months to treat.

## Tuberculosis

Peer J 2017; 5: e4165 e2.

## Tuberculosis: Current Treatments, Challenges, and Clinical Progress in Africa

It has been confirmed that treatment with TNF- $\alpha$  antagonists is associated with elevated risk.

## Current concepts in the management of tuberculosis — Mayo Clinic

Tuberculosis TB has recently been described as a neglected epidemic. Treatment should be undertaken ideally at an MDR-TB centre and discussion held with the British Thoracic Society UK MDR-TB Clinical Advice Service.

### **Tuberculosis Guide: Causes, Symptoms and Treatment Options**

In the context of standard treatment, dose adjustment in the presence of kidney failure is required only for EMB and PZA. Patients with drug-resistant TB or coinfection with human immunodeficiency virus should be treated in collaboration with TB specialists. You can be assured our editors closely monitor every feedback sent and will take appropriate actions.
