## Description: Excavations at Shah Tepé, Iran

The oldest remains in place in the Neolithic and Eneolithic. The most striking feature is the numerical importance of seeds from grape *Vitis vinifera* that represent almost 84% of the total number of items.

## Excavations at Shah Tepe, Iran VII. Archaeology 5: Reports from the Scientific Expedition to the North

However, no trace of mud-brick wall was found in the excavation and it is not clear whether these jars were kept in an enclosure larger than the excavated area or in an open space. The geographical position of the plain between the mountains and the desert made it a natural corridor for east-west traffic.
