NCCA Curriculum Online Transition Year

Work experience is a core aspect of the Transition Year programme. The activity-based learning ethos of the year requires each school to engage in school-based assessment, which helps students to identify their own strengths and weaknesses, as well as develop the skills of self-assessment and reflection.

Transitional Year

It was great to get the chance to explore the implications of the TY guidance document for coordinators' practice, to discuss the challenges faced by all coordinators and to hear about the approaches being used by different schools to ensure students experience a quality TY programme. Breaks are catered to your preferences, with outdoor activities ranging from abseiling to zip-wire, go-karting to rock-climbing and much more. You will find all the resources used on the night.

Transition Year

The webinar was well attended and teachers discussed the many ways in which they have adapted to ensure a quality Transition-Year experience for their students.
