## Trace metals in sediments from the inner continental shelf of the western Beaufort Sea

Bacterial production rates and concentrations of organic carbon at the end of the growing season in the Greenland Sea. Characterizing the subsurface chlorophyll a maximum in the Chukchi Sea and Canada Basin. As a result, the decline in long-tailed duck density in both study areas was not attributable to industry-related activities.

## 2 The Coastal and Marine Geology Program

. A 9-year historical database 1977—1984, 1989 of long-tailed duck densities and other important data recorded during systematic aerial surveys was analyzed retrospectively using multiple regression techniques.

## The nearshore western Beaufort Sea ecosystem: Circulation and importance of terrestrial carbon in arctic coastal food webs

Solomon, 2000: Arctic Coastal Dynamics-Report of an International Workshop, Woods Hole, MA, November 2-4, 1999.

## 2 The Coastal and Marine Geology Program

Hood, 1971, Clay mineral composition and geologic significance of some Beaufort Sea sediments, Journal of Sedimentary Petrology, v.

## Trace metals in sediments from the inner continental shelf of the western Beaufort Sea

This newly proclaimed Exclusive Economic Zone EEZ provided a mandate for further exploration. Information was compiled on measures of erosion and accumulation occurring in a specific area, and the aggregate mean was reported. Department of Commerce, National Oceanic and Atmospheric Administration, Office of Marine Pollution Assessment, Rockville, Md.

#### **Sea ice scouring on the inner shelf of the southeastern Canadian Beaufort Sea**

The research provides the means to improve the knowledge of physical conditions in the coastal zone in order to help government agencies, corporations, and local residents understand, mitigate and redu.

#### **The nearshore western Beaufort Sea ecosystem: Circulation and importance of terrestrial carbon in arctic coastal food webs**

Wang, 2020: Projections of extreme ocean waves in the Arctic and potential implications for coastal inundation and erosion.
