SOSTENIBILITÀ

Se le humanities potranno in futuro trarre benefici dalle possibilità offerte dai Big Data è una questione legata, dunque, anche a come l'università saprà adattare i suoi programmi a queste esigenze sempre più urgenti. It is the symbol of a community, it is the translation of its links and social processes into an identifiable physical forms, it constitutes a language able to determine profound identity differences between geographical areas, regions and cultures.

The new law about public contracts makes this very clear. This helps to maintain portability between different languages and text types, and to alleviate the bias that can arise from a priori annotation schemes and linguistic resources.
