**The United States and Central Europe:
Tasks for a second century together**

The integration of Central Europe into Western institutions, while well embedded in the minds of most Americans and Europeans, must be maintained. Moreover, the entry of one MNE is often followed by others, particularly in sectors which are, at the international level, characterized by a degree of oligopoly.

Multinational enterprise strategy, foreign direct investment and economic development: the case of the Hungarian banking industry

In other words, it was the rates, competition and the work ethic that combined to create the offshore cost advantage. The model is illustrated by a number of case studies of multinationals.

Foreign Direct Investment and Trade: Complements or Substitutes? Empirical Evidence for the European Union

FDI in-flows have helped these countries to slowly reach the levels of prosperity enjoyed by the Western Europe.

A new dawn: Reigniting growth in Central and Eastern Europe

It also addresses concerns about potential drawbacks for the host economies, economic as well as non-economic.

Probing theoretically into Central and Eastern Europe: transactions, resources, and institutions

This amounts to the fact that Pakistan is also set to promote itself as a viable host country for FDI and MNEs. The most important point for policy makers lies in the interaction between human capital development and technology diffusion.

Foreign direct investment in the financial sector and economic growth in Central and Eastern Europe: The crucial role of the efficiency channel

The retail sector is relatively modern, but companies can raise their productivity by adopting technology and lean processes. Through parallel NATO and EU enlargements, a Europe whole, free, and at peace expanded to include Central Europe.
