Tribology conferences, symposia, seminars, courses

The general objective of this conference is to contribute and demonstrate fundamentals, applications and experiences in the field of Tribology. We would like to express our gratitude to the authors for submitting their work. The Conference program is enriched significantly by plenary presentations of renowned experts in their respective domains: Distinguished Professor.

Tribology Conferences

We would like to thank to all those who have contributed, in one way or another, to the success of the Conference. We are grateful to the Scientific Committee members as well as to the external reviewers for their volunteer hard work of reading and discussing the submissions. The authors of the accepted papers have been invited to present their work in the Conference and we are pleased to welcome 110 participants from 9 countries, presenting 69 papers.

Tribology conferences, symposia, seminars, courses

Papers presented at ROTRIB 2016 are included in the following topics: Friction and Wear Tribochemistry and tribocorrosion Contact Mechanics Tribology of machine elements Micro and nanotribology Tribology in manufacturing processes Lubrication Surface metrology, surface engineering, coatings Lubricants Condition monitoring These topics were discussed in sessions and two satellite symposia, VAREHD 2016 and DIPRE 2016. We have received an excellent number of submissions out of which, after a thorough peer reviewing process, a number of 75 scientific contributions has been accepted for presentation and publication.

Proceedings of the STLE/ASME International Joint Tribology Conference

It has been a great pleasure for us to organize the Conference ROTRIB'16 and we do hope that this scientific event will stimulate future developments and innovations in the field of tribology.

Tribology conferences, symposia, seminars, courses

The exchange of ideas, theories, developments, innovations, improved methods and future trends was a key goal of this conference, by bringing together specialists from industry and academia, leading and young researchers, from various engineering and science fields. We also hope that all participants have had a pleasant and fruitful time in Galati, on the banks of the Danube River. Organising Committee Galati, September, 2016
Export citation and abstract.

Proceedings of the STLE/ASME International Joint Tribology Conference

The Conference was held in Galati, ROMANIA at the Natural Sciences Museum Complex, September 22 — 24, 2016.
