The Advisory Committee on Immunization Practices' Interim Recommendation for Use of Moderna COVID

It also required continuous physical presence in the country since before November 6, 1986, the enactment date of IRCA. In addition, unaffiliated members do not have to be present for an IRB to conduct review and approve research studies. Specifically, we requested comment as to whether, and if so, how foreign private issuers with boards of auditors or similar bodies or statutory auditors should comply with the audit committee financial expert disclosure requirements.

Chemicals under the Toxic Substances Control Act (TSCA)

Conclusions This report proposes 30 recommendations for changing the oversight system at the national and local levels to ensure that all research participants receive the appropriate protections. Such procedures should also be permitted for handling other research-related matters, such as determining whether an activity is research and subject to oversight, reviewing minor proposed changes to an approved protocol, conducting some types of continuing review, and reviewing some reports of unanticipated problems.
