Looking at Lives Through Ethnography

If the level of education and the number of hours worked are important to a child's future income, the acquisition of a positive work ethic is vital. People who live together before marrying divorce at about twice the rate of couples who do not cohabit before marriage, and four times the rate if they marry someone other than their present partner. Consider, by comparison, the reaction to a comparable decrease in the national economy.

Articles in support of ESL Family Literacy Programming

Thus those families that left did so for essentially random reasons.

Ryan's 'inner city' comments sparking backlash

British Educational Research Journal, 33 3 , 295-313. What is available has come from the Federal Reserve Board, an unlikely but welcome source. Being raised in a Family that received Welfare also appears to raise the risk of premarital pregnancy.
