Summer Camps

Winston Kock, indicates some of the facility's contributions, such as Lowell Rosen's improvement of so-called focused-image holography Kock, 80-82. NASA is not responsible for the information collection practices of non-NASA sites.

Goddard Space Flight Center

Engineers from Lockheed Martin Aviation will mentor the teams.

chapter 6

GSFC also operates two spaceflight tracking and data acquisition networks the and the , develops and maintains advanced space and Earth science data information systems, and develops satellite systems for the NOAA. Research at the Center included investigation of all phases of aeronautical flight, reentry and landing for space flight, and problems of manned flight within and beyond the atmosphere. Goddard Space Flight Center contributed to , America's first program.

chapter 6

WESTERN TEST RANGE OPERATIONS DIVISION. Aerial view of Flight Research Center, above, and a modified X-15 experimental aircraft with external fuel tanks. The ERC has received hardly any attention as a subject of scholarly or lay studies.

Electronics Research Center

It served to develop the space agency's in-house expertise in electronics during the Apollo era.

NASA Electronic Research Center

Five of the installations were existing facilities of the National Advisory Committee for Aeronautics NACA , which in October 1958 became the nucleus of the National Aeronautics and Space Administration. Each of the four spacecraft carries identical instrument suites.
