Matern Child Health J Springer US. Geneva, Switzerland: World Health Organization; 2006.

## Two

Institutional co-ordination to put words into action A few OECD countries have established dedicated institutions to monitor the performance of governments in delivering on intergenerational justice. Vietnam's family planning policy was developed before those of other countries, such as China and. Governments can also set up mechanisms that bring youth, adults and elderly together in intergenerational dialogues to enhance more inclusive and longer time-frames in decision-making, for instance by leveraging existing bodies.

## Humanitarian Action for Children Appeal

All questions on substance as well as on respondent information were compulsory.

## 2019 National Improvement Framework and Improvement Plan

However, Marshall also identified ways in which the pedagogy of empowerment began to re-emerge, again, in the mid 1980s. They are also more vulnerable to its effects. Helping youth with mental health and well-being In numerous countries, including Germany, Ireland, Portugal and the UK, governments have provided and disseminated practical advice for parents as well as children and young people on how to cope at home during confinement.
