Energy transition research & technologies

Halide perovskites are organic materials made from abundant and inexpensive ingredients. To view the property and lodging options, visit.

Solar energy collectors... grown from seeds!

× Alberto traded his laboratory for a pair of hiking boots and a ticket to the Amazon—determined to learn from researchers whose vision had not been confined to the lens of a microscope, from people whose body of knowledge encompassed more than the measurable, material world that he had been taught was the ONLY reality.
