### Could humans live on Mars? Here's what a NASA expert has to say

Secondly, the SLS System, or Sky-Crane Landing System, would use population systems to lower rovers and other equipment onto the surface.

### 7 Photos From Mars That Will Make You Believe In Aliens

Some scientists think that cyanobacteria could play a role in the development of self-sustainable crewed outposts on Mars.

### GrowGeneration

Their skin could reflect it.

### Why we can't send humans to Mars yet, and how we'll fix that

Preparing for an assault on Luna, Darrow and Mustang devised a plot to end the war with the help of Sevro and Mickey.

### Overview

However, Darrow was able to fight back. Give our future settlers some mobility, and they should be able to find any resource they need.

### Human mission to Mars

That black thing has a light on top.

### GrowGeneration

Opportunity continues to operate, nearly eight years after landing.
