The Human Face of Radiocarbon

To address our hypothesis, we compiled C282Y allele frequencies, known Neolithic sites in Europe and climatic data on temperature and rainfall for statistical analysis.

THE CAMBRIDGE HISTORY OF AFRICA Volume 2

For the soil-related parameters, we used global estimates as provided by Dai et al. According to Pliny the Egyptian varieties of emmer were easier to thresh than the Greek varieties. French-Speaking Traditions and Ancient Greeks outside their Homelands 67 Polignac, François de.

The origins of animal domestication and husbandry: A major change in the history of humanity and the biosphere

Issues in Theory The Wrst issue is the problem of terminology. In parallel, monitoring of possible mutagenic components of the environment was also conducted.

Intensification of animal husbandry in the Late Bronze Age? The contribution of sheep and pigs

Our main emphasis is on the scientific-experimental tourism.

THE CAMBRIDGE HISTORY OF AFRICA Volume 2

DVIN provides very wide possibilities for sharing data and sending warnings and alerts to scientists and other entities world-wide, which have fundamental and practical interest in knowing the space weather conditions. The Roman authorities seem to have had some misgivings about the extension of viticulture at the expense of arable farming, since Domitian in the first century ad is said to have ordered half the vineyards in the

provinces to be uprooted after a bad grain harvest, although he did not take any action to enforce his edict. Recently, the publication of a first volume on Illyrian Apollonia continues this tradition but in the context of collaborative work Dimo 2007; see also Bresson, Ivanchik, and Ferrary 2007.
